

NeXplore Corporation Acquires Web-based Operating System and Office Suite

*Universally Accessible Cloud-based Office Applications Provide a
Powerful, Unified Personal Desktop and Secure Cloud-based Storage for
Consumers on the Go*

FRISCO, TX — September 1, 2009 — NeXplore Corporation (OTC: NXPC.PK) today announced the acquisition of a robust Web-based operating system and office-application suite from Milana Corporation. The acquisition enables NeXplore Corporation to offer consumers a secure, Cloud-based personal desktop that features an array of free, unified software-as-a-service (SaaS) applications for creating, consolidating and managing email accounts, contacts, calendars, projects, documents, music and movie files, among many other popular personal and business computing and Internet activities.

NeXplore Corporation will make this technology available for free to registered users of NeXplore Search (www.NeXplore.com), the company's flagship product—an interactive and visually engaging Web 2.0 search engine optimized for a superior end-user experience, multi-media display and social sharing integration. In public beta since January 2008, NeXplore Search currently averages close to five million unique monthly visitors and, according to the Web information company Alexa, ranks in the top 2,500 Web destinations worldwide.

“The convenience of having universal access to a personal, application-rich desktop and a single, secure place on the Internet for managing and storing virtually every facet of a person's computer and Internet activity aligns perfectly with NeXplore's mission to radically improve the online experience for everyone,” said Edward Mandel, chief executive officer for NeXplore Corporation. “We anticipate an enthusiastic response to this offering from our growing base of loyal NeXplorers. This valuable and unprecedented offering is sure to entice even more consumers to give NeXplore Search a try and make it their search engine of choice.”

A selection of free Cloud-based tools and applications NeXplore Corporation will offer include:

- 5 GB free, secure, Internet storage space
- Email account consolidation and management
- Address book, contact list consolidation and management
- Document creation, editing and management
- Calendar, project and task management
- Photo storage, management and viewing
- Music storage, management and listening
- Global SMS messaging
- Instant messaging (IM)
- Expense account management

NeXplore Corporation anticipates making the Web-based, application-rich, desktop-as-a-service offering available to registered users of NeXplore Search in Q4 2009.
